**MADE FOR TRADE**

# DC CEILING FANS

# FANTECH TRADE

## MADE FOR TRADE

Fantech Trade's team is made up of real **ventilation specialists** passionately supporting the trade. We provide the **best advice, the best products** and back it all up with **technical expertise**, application know-how and the highest level of support for our customers. Whether it's a straight forward exhaust air installation or a more complex commercial ventilation system, our expert team is here to help you choose the most suitable solution. When you're working with Fantech Trade, you will get **the best product for the job**.

Fantech Trade's range of ceiling fans blend sophisticated style with **reliable performance** and easy to install features to ensure both sparkies and home occupants are more than satisfied with the product.

### Optimised with

# AeroGlide

## SYSTEM

MAXIMISES AIR FLOW AND FAN EFFICIENCY

ENSURES SMOOTH, LOW NOISE OPERATION

PRODUCES BALANCED,  
AERODYNAMIC ROTATIONAL MOVEMENT

AeroGlide System is the next generation of innovative ceiling fan technology. It combines aerodynamic engineering techniques with state-of-the-art motor design to maximise fan efficiency and achieve a balanced, ultra smooth rotational movement.

Impeller blade geometry has been fully optimised to enhance air flow volume and direct the air stream where it is needed.

Each model includes blades with a cutting edge twist profile design that improves air movement and overall fan performance.

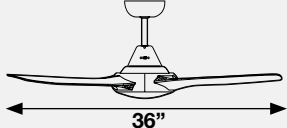

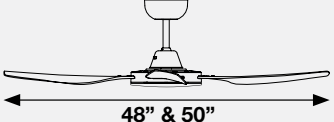

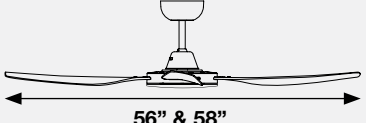

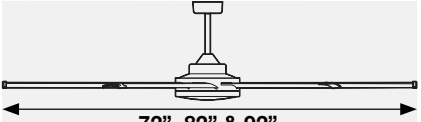

AeroGlide also incorporates ergonomic quick connect terminals that simplify wiring and allow fast, time saving installation.

The AeroGlide System is integrated into the Fantech Trade premium ceiling fan range, including the Quinton DC, Flair DC and Atmos DC.

Our years of fan engineering knowledge and expertise in air movement ensures AeroGlide's inherent attributes deliver strong efficient air flows and quiet operation.

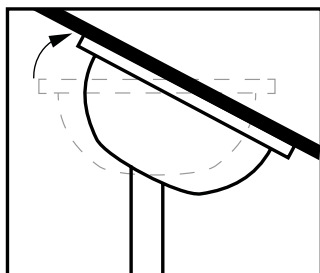

## SELECTING A CEILING FAN

The table below can be used as a general guide to select a suitable ceiling fan for different room types. Chart is based on standard ceiling heights up to 2.5m and 1 fan per room. Multiple fans may be required for large spaces.

Room Type	Room Size	Fan Size	Fan		
 Home offices	 Small bedrooms	Rooms up to 9m <sup>2</sup>	 36"	Flair	
 Small-medium bedrooms	 Small-medium living spaces	 Covered outdoor areas	Rooms 9-20m <sup>2</sup>	 48" & 50"	Quinton, Scud & Flair
 Large bedrooms	 Medium-large living spaces	 Covered outdoor areas	Rooms 20-36m <sup>2</sup>	 56" & 58"	Quinton & Flair
 Open large living spaces	 Covered outdoor areas	Rooms >36m <sup>2</sup>	 72", 82" & 92"	Atmos	

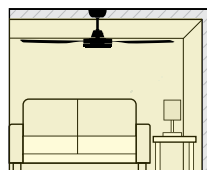

## ANGLED CEILINGS

Fantech Trade ceiling fans can be installed on angled ceilings. Up to 15 degrees for Quinton DC, Flair DC & Scud DC models, and up to 13 degrees for Atmos DC models.

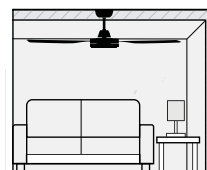

## LED LIGHT

All models have an LED light option, in the form of either an in-built LED light, or LED light kit (sold separately). The LED can easily be changed to warm white, cool white or daylight at any time to meet your preference or match other installed lights. LED light can be controlled using wall switch or remote included with fan and can be dimmed using the remote.

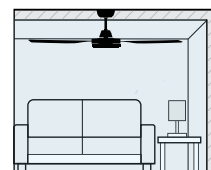

**Warm White**

(Colour Temperature: 3000K)

**Cool White**

(Colour Temperature: 4000K)

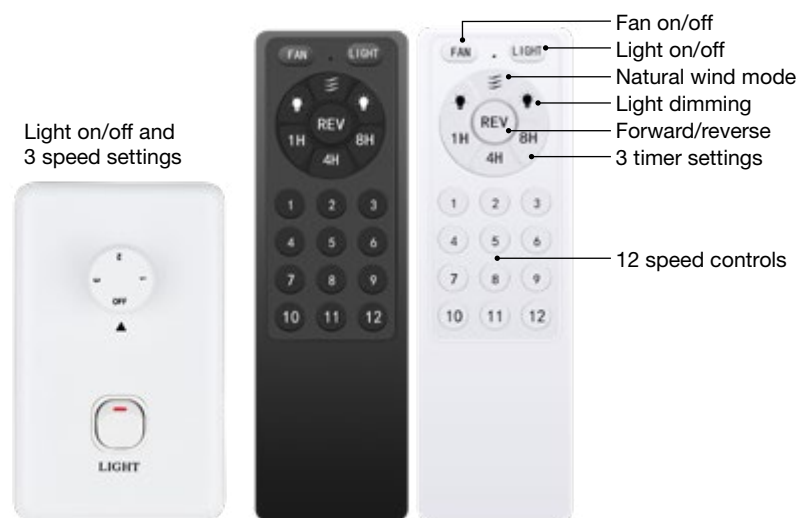

**Daylight**

(Colour Temperature: 5000K)

Colour indicated in drawings above is for illustrative purposes only.

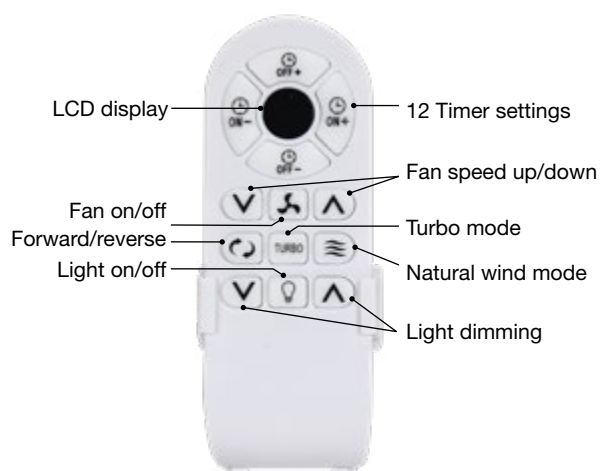

## INCLUDED CONTROLLERS

### QUINTON, SCUD & FLAIR REMOTE AND WALL SWITCH

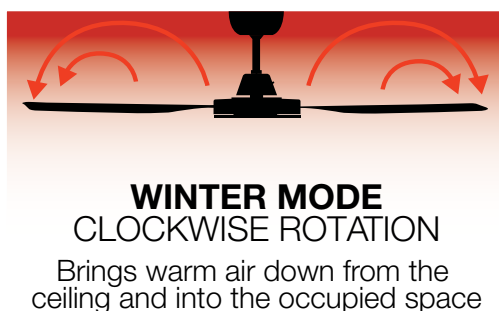

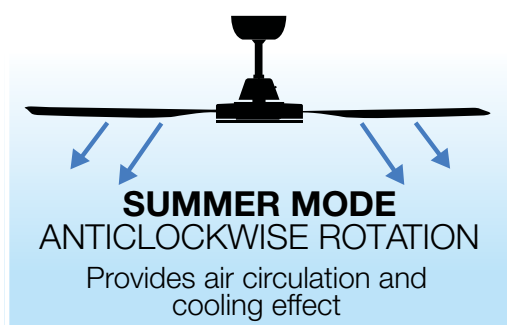

White remote comes with white fan, black remote comes with black fan.  
Wall controller and remote cannot be used in conjunction with each other.

### ATMOS REMOTE

## REVERSIBLE ROTATION

All of our ceiling fans feature both Summer and Winter modes to ensure comfort all year round. The fans are reversible via remote control or fan body, dependent on installation method.

## **AeroGlide** SYSTEM

3 speed wall controller with light switch and 12 speed remote control with on/off, forward/reverse, dimming function, natural wind mode and 3 timer settings included.\*\*

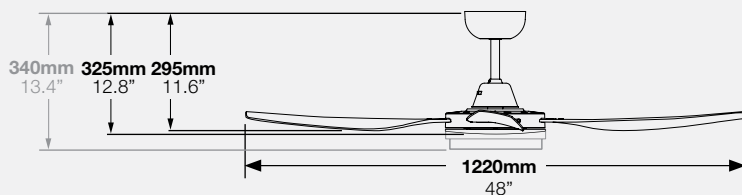

Optional CCT LED Light Kits

The energy efficient Quinton DC ceiling fan provides exceptional air circulation and cooling effect within indoor and covered outdoor areas. It is made from durable ABS for a long working life and pre-balanced for smoother, low noise operation.

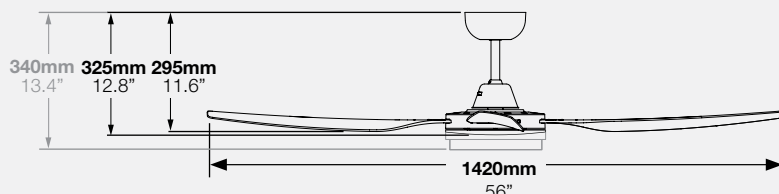

- High quality and energy efficient DC motor
- Innovative blade geometry maximises air flow & fan efficiency
- Utilises the latest ceiling fan technology and design
- Engineered for fast and efficient installation
- Suitable for indoor and covered outdoor areas
- Quick connect terminals simplify wiring
- 12 speed (with remote control)
- Remote and wall controller included
- Super quiet operation
- Optional CCT LED light kit available with dimming function via remote

The Scud DC ceiling fan is available with 3 or 4 blades and with or without LED light. It is fitted with an energy efficient DC motor that is super quiet, and provides up to 12 adjustable speed settings. The Scud DC is lightweight and has been engineered for fast installation.

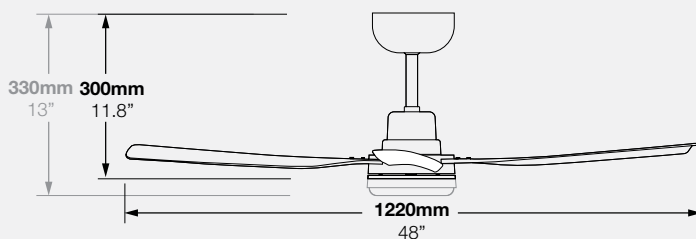

- High quality and energy efficient DC motor
- Available in three and four blade models
- Innovative blade geometry maximises air flow & fan efficiency
- Provides exceptional air circulation and cooling effect
- Suitable for indoor and covered outdoor areas
- Quick connect terminals simplify wiring
- Made from durable ABS for a long working life
- Pre-balanced for smoother, low noise operation
- 12 speed (with remote control)
- Remote and wall controller included
- CCT LED light kit models are dimmable using remote control included with the fan
